

4385 2k-Shut-off valve mixing tube

Description

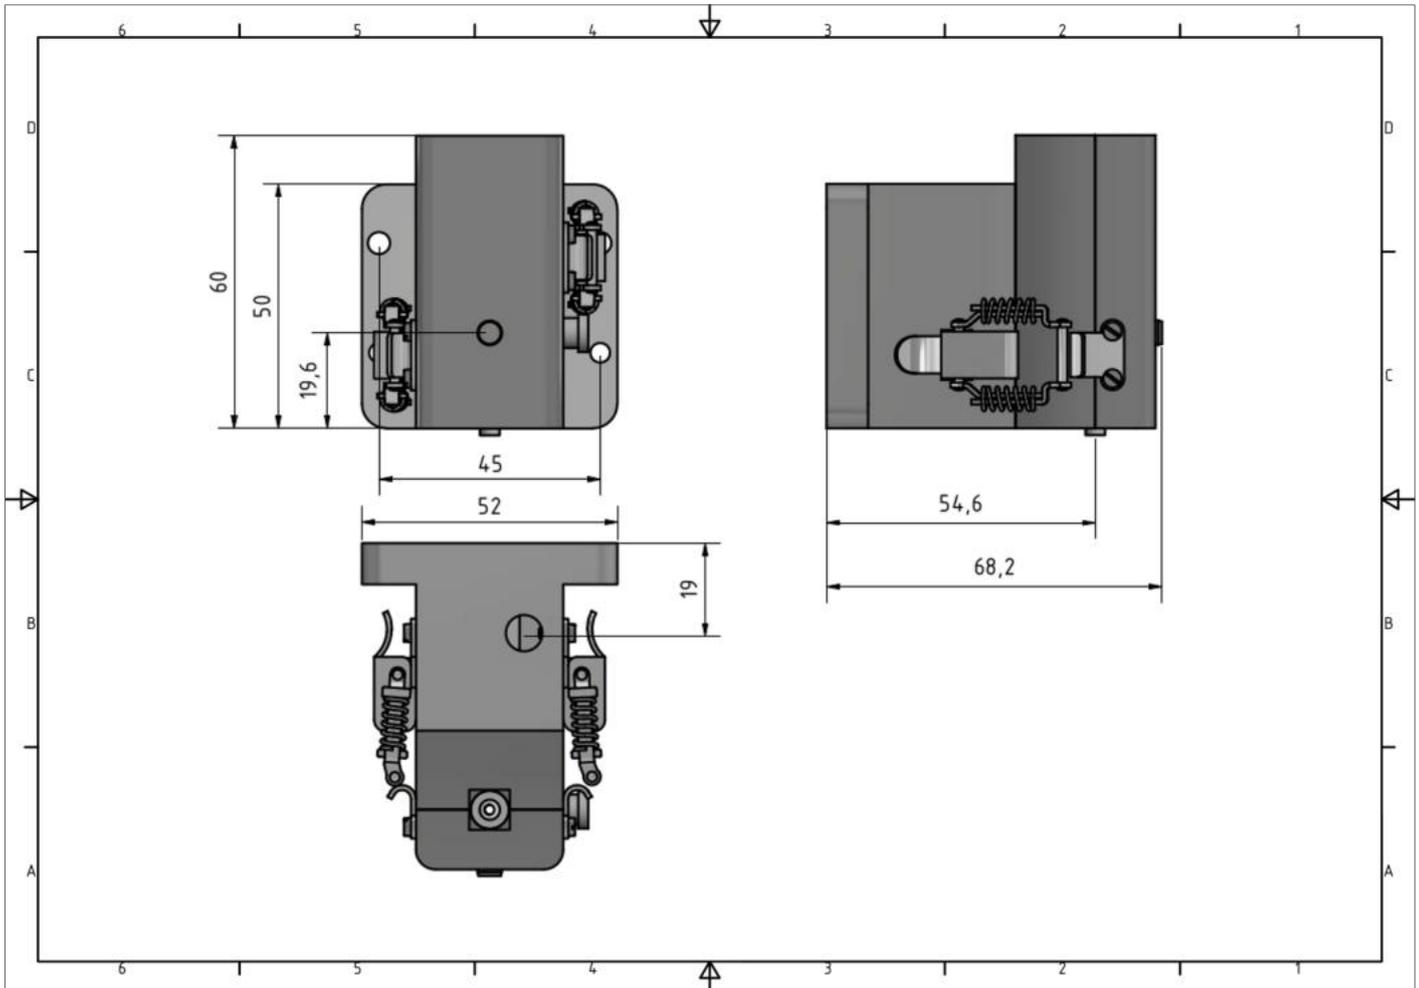

Mixing tube shut-off valve, suitable for V-2K-DUO Electro valves or 2k-Dispenser.

Prevents dripping of dosing material when using very low viscous dosing media.

The internal disposable tap can be easily taken and can be replaced as needed.
Cover cap removable with 2 box locks.

4385 2k-Shut-off valve mixing tube

Dimensional drawing (Dimensions in mm)

Casing Material	Aluminium
Drive	Digital Servo motor 24V
Inner diameter dosing needle	2 mm
Strand thickness	1-2 mm
Wearing part	5020-0002 one-way cock LuerLock
Accessory	Holder
Dosing media	Suitable for low to middle viscous dosing media
Dimension	60 x 52 x 68,2 mm
Weight	250 g
