

4384 Shut-off valve 10ml / 30ml Cartridges

Description

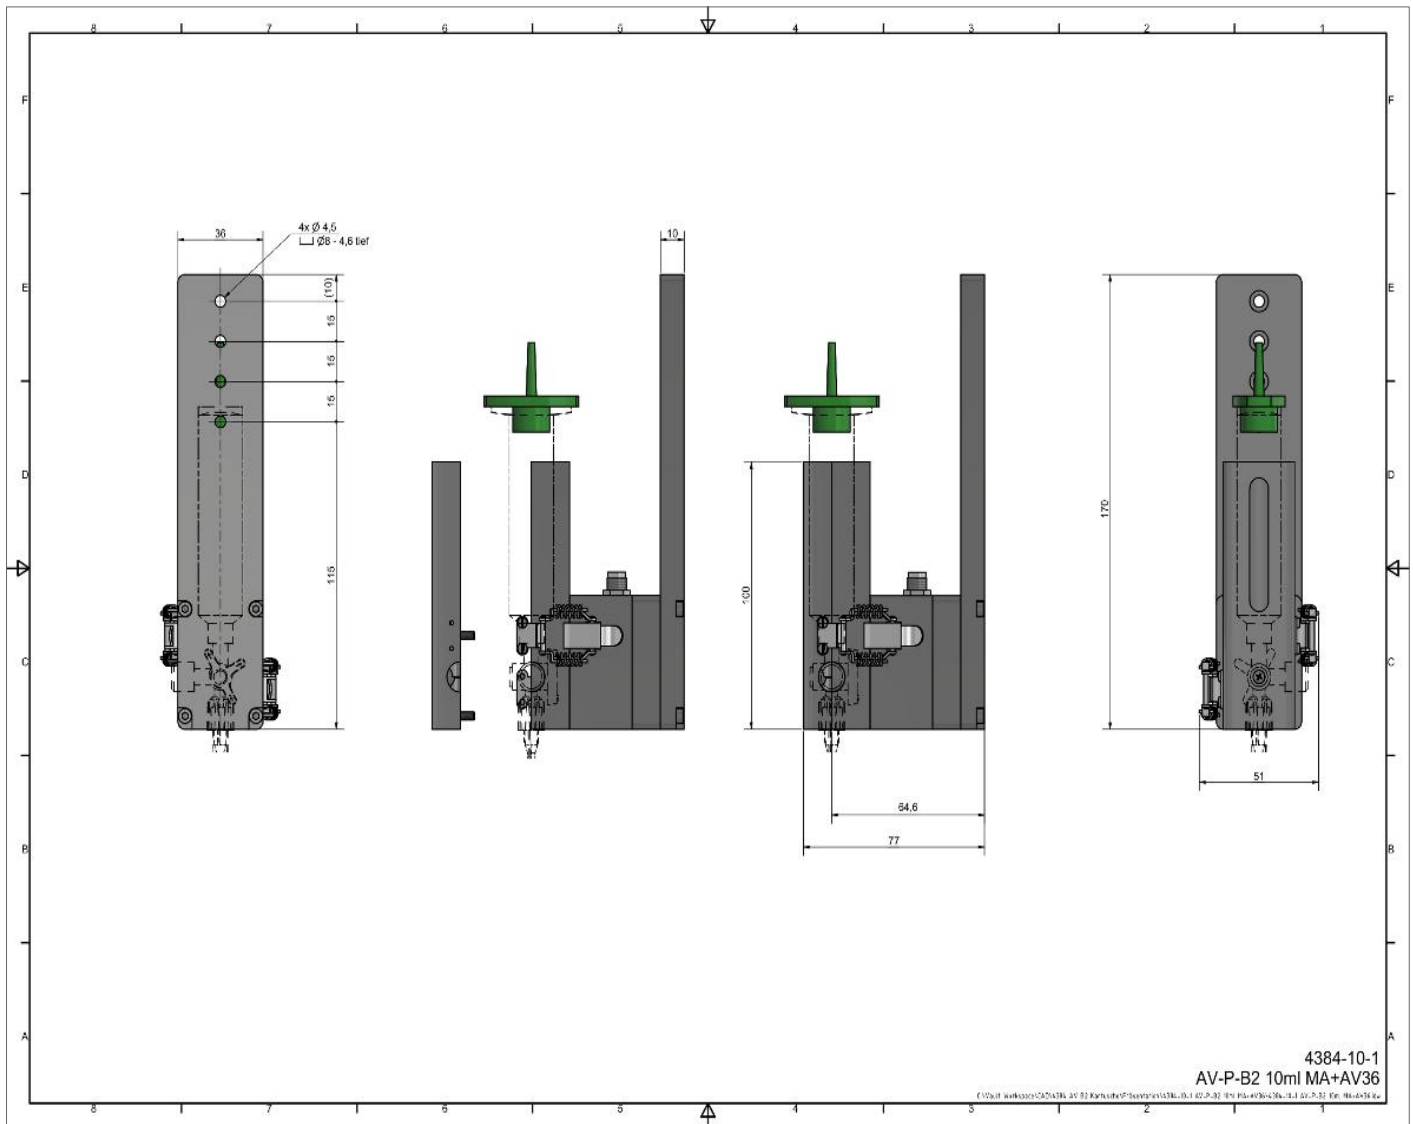

Shut-off valve, suitable for 10ml und 30 ml cartridges.

Prevents dripping of dispensed material when using very low-viscosity dispensing fluids.

The Luer Lock shut-off valve (Part No. 5020-0002) can be easily removed and replaced as needed.
The cover cap is removable and features two box locks.

4384 Shut-off valve 10ml / 30ml Cartridges
