

7006-1002 Temperature/Humidity sensor

(Illustration similar)

Readout in User interface of DiSoft-Software

Description

High-precision humidity and temperature sensor with USB connection in black plastic housing.

Suitable for Windows and Linux. Several temperature sensors one PC possible.

Program interface for easy integration in DiSoft-Software.

Measuring accuracy	$\pm 0,2^\circ$ Celsius and $\pm 2\%$ relative humidity (RH)
Resolution	Resolution $0,04^\circ$ C resp. 0,5% RH
Range of operation	-20° C / $+80^\circ$ C
Protection	Splash-proof
Power consumption	< 25 mA per sensor
Dimensions	44 x 30 x 23 mm
