

Product description

The interface card offers you the option of 12 inputs and 12 outputs to be connected via terminals. The supply voltage 24V and GND is available for each of the 12 inputs. All inputs and outputs are indicated by LEDs. The cards are suitable for installation in a control cabinet.

Technical description

- Control box (W) 260 x (H) 180 x (D) 90 mm
- 12 inputs 24V, display via LED
- 12 outputs via relays, selectable opener / closer
- Terminals for supply voltage 24V
