

9050 Emptying system Tube 600 ml

Product description

Material pressure container for material tube 600 ml with quick ventilation.
The setting on the manometer changes the pressure on the cartridge piston and thus the flow rate.

Technical description

- Material pressure container
- Regulator with pressure gauge 0-6 bar
- Dimension: 435 mm (L) Ø 65 mm

Option:

Limit-sensor 7002-0004
